I am a software engineering student who wants to create amazing and problem-solving software and web apps that will help people to be more active and effective in their daily lives. I want to use my knowledge of coding and software development as much as possible to efficiently meet the needs of clients and customers. Have the ability to work in a team of motivated individuals who want to help the company and its goals advance. On problem solving sites such as Leetcode, Codeforces, Hackerrank I have solved over 500 questions.

EDUCATION

Addis Ababa Science and Technology University, Addis Ababa   Feb 2018 - Jul 2024 (Expected)
Bachelor of Software Engineering
CGPA: *3.7*
Relevant Courses: Data Structures and Algorithms, Object-Oriented Programming, Web Programming, Mobile Programming, Operating Systems, Software Engineering, Design Patterns, and Database Administration and Security are among the pertinent courses.
- Awarded a top Performance certification
- Elected to Campus Directorate for organizing a local competition for students in 2020

Addis Ababa University School of commerce, Addis Ababa   May 2021 - Dec 2024
Cisco Certified Network Associate
- Professional development in configuring connectivity between switches, routers, and end devices to provide access to a local and remote resource was completed.

Africa to Silicon Valley, Programming Academy   Mar 2021 – Ongoing
Trainee, Addis Ababa, Ethiopia
- A2SV upskills high-potential African students, connects with top Silicon Valley companies, and creates digital solutions to urgent problems in their home countries. A2SV students have achieved a 70% (31/44) success rate in 2022 at Google Software Engineering interviews.

IBM, Internet of Things   Oct 2021 – Feb 2022
IBM, *online certification program*
- Professional development completed in the architecture and design of IoT systems, many technologies (wireless, mobile, and sensor), controlling system deployment, and the migration of data to the cloud for processing.

- Certified in the Profession for successfully completing the assessment test with a score of 80% or more.

EXPERIENCE

Mobile Application Developer   May 2022 - Sep 2022
Africa to Silicon Valley, Addis Ababa
Lab - Connect is a healthcare platform that bridges the gap between patients, doctors, and lab technicians by tracking data and staying notified of your test progress in real-time, and automatically
deliver lab results to your doctor to get your diagnosis completed quicker
- Worked as a Flutter mobile app developer and Translate User Interface designs into interactive mobile applications
- Built reusable code and libraries for future use
- wrote unit and integration tests to make sure everything works as expected

Technical Mentor   Aug 2022 - Present
A2SV, Addis Ababa
More than 20 undergraduate students were trained, helped, and mentored while being guided through an interview preparation program via lectures and other programs with a focus on problem-solving, communications skills, data structures, algorithms, and personal development.

Front End Developer   Oct 2020 - Nov 2021
AASTU, Addis Ababa
AASTUGRAM It is a web app that aims at integrating, connecting, socializing, and linking students within and beyond the University's academic affairs with a mission to reach the multilateral problem of our country as well as our continent through collaborative effort toward one goal.
- utilize my knowledge of multiple front-end languages and libraries (e.g., HTML/ CSS, React/Angular, JavaScript, use different data formats such as JSON) for functionality purposes.
- Develop and manage well-functioning databases and applications
- Collaborate with other development teams to deliver product enhancements

SKILLS

Programming Languages: Python, C++, Java, JavaScript, PHP, Dart
Frameworks: NodeJS, React, Laravel, Flutter, Django, Flask, Spring boot
